

# *DreamStorming*

In business, partners engage in brainstorming. In the business of marriage, you and your partner will benefit from an exercise in dreamstorming. What is that? In a free-flowing, no-holds-barred, unrestricted environment, each of you are encouraged to disclose your secret, healthy desires for life that are honoring to God. Why is this important? Dreams become reality when you have a strategy to accomplish them. The question is this: if God offered to make your dreams come true, what would you offer as your list? Use the spaces below to list your top dreams for the next ten-plus years. The sky is not the limit! Heaven knows no limits! Dream boldly! Seek to dream in all the following areas of your life:
